destruction.

**Rise and Kill First**-Ronen Bergman 2019-07-09
NEW YORK TIMES BESTSELLER * The first definitive history of the Mossad, Shin Bet, and the IDF's targeted killing programs, hailed by The New York Times as "an exceptional work, a humane book about an incendiary subject."
WINNER OF THE NATIONAL JEWISH BOOK AWARD IN HISTORY NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Economist * The New York Times Book Review * BBC History Magazine * Mother Jones * Kirkus Reviews The Talmud says: "If someone comes to kill you, rise up and kill him first." This instinct to take every measure, even the most aggressive, to defend the Jewish people is hardwired into Israel's DNA. From the very beginning of its statehood in 1948, protecting the nation from harm has been the responsibility of its intelligence community and armed services, and there is one weapon in their vast arsenal that they have relied upon to thwart the most serious threats: Targeted assassinations have been used countless times, on enemies large and small, sometimes in response to attacks against the Israeli people and sometimes preemptively. In this page-turning, eye-opening book, journalist and military analyst Ronen Bergman--praised by David Remnick as "arguably [Israel's] best investigative reporter"--offers a riveting inside account of the targeted killing programs: their successes, their failures, and the moral and political price exacted on the men and women who approved and carried out the missions. Bergman has gained the exceedingly rare cooperation of many current and former members of the Israeli government, including Prime Ministers Shimon Peres, Ehud Barak, Ariel Sharon, and Benjamin Netanyahu, as well as high-level figures in the country's military and intelligence services: the IDF (Israel Defense Forces), the Mossad (the world's most feared intelligence agency), Caesarea (a "Mossad within the Mossad") that carries out attacks on the
highest-value targets), and the Shin Bet (an internal security service that implemented the largest targeted assassination campaign ever, in order to stop what had once appeared to be unstoppable: suicide terrorism). Including never-before-reported, behind-the-curtain accounts of key operations, and based on hundreds of on-the-record interviews and thousands of files to which Bergman has gotten exclusive access over his decades of reporting, Rise and Kill First brings us deep into the heart of Israel's most secret activities. Bergman traces, from statehood to the present, the gripping events and thorny ethical questions underlying Israel's targeted killing campaign, which has shaped the Israeli nation, the Middle East, and the entire world. "A remarkable feat of fearless and responsible reporting . . . important, timely, and informative."--John le Carré

**Batman The Complete History**-Les Daniels 1999-10 An illustrated chronicle of the popular comic book hero's evolution includes rare comic book art, sketches, and movie stills

**The New York Times Complete Civil War, 1861-1865**-Harold Holzer 2010 Collects the complete New York Times coverage of the events in the Civil War, including accounts of battles, personal stories, and political actions, and provides cultural and historical perspective on the published issues.

**A People's History of the United States**-Howard Zinn 1996 In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be
compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

**Revelation**- 1999-01-01 The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

**Sapiens**-Yuval Noah Harari 2015-02-10 New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity’s creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, Sapiens integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do
we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

The Origins of the Second World War - R. J. Overy 2014-01-14 The book explores the reasons why the Second World War broke out in September 1939 and not sooner, and why a European war expanded into world war by 1941. The war has usually been seen simply as Hitler’s war and yet the wider conflict that broke out when Germany invaded Poland was not the war that Hitler wanted. He had hoped for a short war against Poland; instead, Britain and France declared war on Germany. Richard Overy argues that any explanation of the outbreak of hostilities must therefore be multi-national and he shows how the war’s origins are to be found in the basic instability of the international system that was brought about by the decline of the old empires of Britain and France and the rise of ambitious new powers, Italy, Germany and Japan, keen to build new empires of their own.

Danielle Evans is widely acclaimed for her blisteringly smart voice and X-ray insights into complex human relationships. With The Office of Historical Corrections, Evans zooms in on particular moments and relationships in her characters’ lives in a way that allows them to speak to larger issues of race, culture, and history. She introduces us to Black and multiracial characters who are experiencing the universal confusions of lust and love, and getting walloped by grief—all while exploring how history haunts us, personally and collectively. Ultimately, she provokes us to think about the truths of American history—about who gets to tell them, and the cost of setting the record straight. In “Boys Go to Jupiter,” a white college student tries to reinvent herself after a photo of her in a Confederate-flag bikini goes viral. In “Richard of York Gave Battle in Vain,” a photojournalist is forced to confront her own losses while attending an old friend’s unexpectedly dramatic wedding. And in the eye-opening title novella, a black scholar from Washington, DC, is drawn into a complex historical mystery that spans generations and puts her job, her love life, and her oldest friendship at risk.

**Wonder Woman Collector's Edition**

Les Daniels 2001-09-01 As beautiful as Aphrodite, strong as Hercules, wise as Athena, and swift as Mercury, the much-adored Wonder Woman is celebrated in this long-awaited Masterpiece Edition. This incredible collection pays tribute to the Golden Age of Wonder Woman in two ingenious formats: a compact, inexpensive, trade edition, and a larger, more deluxe collector's edition. Both contain an exclusive 8-1/2-inch action figure of Wonder Woman, circa 1941, and a lavishly illustrated hardcover book chronicling the origins and early history of the Amazon Princess. The Wonder Woman figure is available only in these editions, and it authentically replicates the heroine as she appeared in her earliest days—complete with star-spangled cloth.
skirt, golden bracelets, and detachable magic lasso (the one that can make a man forget everything). The larger collector's edition also contains a faithful color reproduction of the very first Wonder Woman comic book. Both editions will be treasured by fans of the woman who wants to "change your mind--and change the world!"

Animal, Vegetable, Junk-Mark Bittman
2021-02-02 "Epic and engrossing." —The New York Times Book Review From the #1 New York Times bestselling author and pioneering journalist, an expansive look at how history has been shaped by humanity’s appetite for food, farmland, and the money behind it all—and how a
better future is within reach. The story of humankind is usually told as one of technological innovation and economic influence—of arrowheads and atomic bombs, settlers and stock markets. But behind it all, there is an even more fundamental driver: Food. In Animal, Vegetable, Junk, trusted food authority Mark Bittman offers a panoramic view of how the frenzy for food has driven human history to some of its most catastrophic moments, from slavery and colonialism to famine and genocide—and to our current moment, wherein Big Food exacerbates climate change, plunders our planet, and sickens its people. Even still, Bittman refuses to concede that the battle is lost, pointing to activists, workers, and governments around the world who are choosing well-being over corporate greed and gluttony, and fighting to free society from Big Food’s grip. Sweeping, impassioned, and ultimately full of hope, Animal, Vegetable, Junk reveals not only how food has shaped our past, but also how we can transform it to reclaim our future.

**In the Town All Year 'Round**-Rotraut Susanne Berner 2008-10 Pictures depict busy people in a town throughout the year.

**Thrust**-Michael Glover 2019-11-26 A laugh-out-loud visual history of the strangest piece of men’s clothing ever created: the codpiece. The codpiece was fashioned in the Middle Ages to close a revealing gap between two separate pieces of men’s tights. By the sixteenth century, it had become an upscale must-have accessory. This lighthearted, illustrated examination of its history pulls in writers from Rabelais to Shakespeare and figures from Henry VIII to Alice Cooper. Glover’s witty and entertaining prose reveals how male vanity turned a piece of cloth into a bulging and absurd representation of masculinity itself. The codpiece, painted again and again by masters such as Titian, Holbein, Giorgione, and Bruegel, became a symbol of royalty, debauchery, virility, and religious seriousness—all in one. Centuries of male self-
importance and delusion are on display in this highly enjoyably new title. Glover's book moves from paintings to contemporary culture and back again as it charts the growing popularity of the codpiece and its eventual decline. The first history of its kind, this book is a must-read for art historians, anthropologists, fashion aficionados, and readers looking for a good, long laugh.

**New York Times Book of World War II 1939-1945**

The New York Times 2013-11-05 The New York Times printed more words on World War II than any other newspaper and had more than 160 correspondents worldwide reporting on the war. Now, for the first time, The New York Times Complete World War II offers a singular opportunity to experience all the battles, politics, and personal stories through daily, first-hand journalism. Hundreds of the most riveting articles from the archives of the Times—including firsthand accounts of major events and little-known anecdotes—have been selected for inclusion in The New York Times: The Complete World War II. The book covers the biggest battles of the war, from the Battle of the Bulge to the Battle of Iwo Jima, as well as moving stories from the home front and profiles of noted leaders and heroes such as Winston Churchill and George Patton. A respected World War II historian and writer, editor Richard Overy guides readers through the articles, putting the events into historical context. The books is illustrated with hundreds of maps and historical photographs plus battlefield maps that originally appeared in the newspaper. Together they provide an engrossing look at this pivotal and defining era of world history.

**1939**

Richard Overy 2010-09-23 "Overy's book is easily the best account of Europe's descent into...death and destruction." --Evening Standard (London) A brilliantly concise narrative of the days leading to the outbreak of history's greatest conflagration, 1939 takes readers hour by hour through the nail-biting decisions that determined the fate of millions. Richard Overy, a leading
The Four Winds

Kristin Hannah 2021-02-02 #1 NEW YORK TIMES BESTSELLER #1 USA TODAY BESTSELLER #1 WALL STREET JOURNAL BESTSELLER #1 INDIE BESTSELLER

"The Four Winds seems eerily prescient in 2021. Its message is galvanizing and hopeful: We are a nation of scrappy survivors. We’ve been in dire straits before; we will be again. Hold your people close."—The New York Times

"A spectacular tour de force that shines a spotlight on the indispensable but often overlooked role of Greatest Generation women."—People

through one woman’s survival during the harsh and haunting Dust Bowl, master storyteller, Kristin Hannah, reminds us that the human heart and our Earth are as tough, yet as fragile, as a change in the wind."—Delia Owens, author of Where the Crawdads Sing From the number-one bestselling author of The Nightingale and The Great Alone comes a powerful American epic about love and heroism and hope, set during the Great Depression, a time when the country was in crisis and at war with itself, when millions were out of work and even the land seemed to have turned against them. “My land tells its story if you listen. The story of our family.” Texas, 1921. A time of abundance. The Great War is over, the bounty of the land is plentiful, and America is on the brink of a new and optimistic era. But for Elsa Wolcott, deemed too old to marry in a time when marriage is a woman’s only option, the future seems bleak. Until the night she meets Rafe Martinelli and decides to change the direction of her life. With her reputation in ruin, there is only one respectable choice: marriage to a man she barely knows. By 1934,
the world has changed; millions are out of work and drought has devastated the Great Plains. Farmers are fighting to keep their land and their livelihoods as crops fail and water dries up and the earth cracks open. Dust storms roll relentlessly across the plains. Everything on the Martinelli farm is dying, including Elsa’s tenuous marriage; each day is a desperate battle against nature and a fight to keep her children alive. In this uncertain and perilous time, Elsa—like so many of her neighbors—must make an agonizing choice: fight for the land she loves or leave it behind and go west, to California, in search of a better life for her family. The Four Winds is a rich, sweeping novel that stunningly brings to life the Great Depression and the people who lived through it—the harsh realities that divided us as a nation and the enduring battle between the haves and the have-nots. A testament to hope, resilience, and the strength of the human spirit to survive adversity, The Four Winds is an indelible portrait of America and the American dream, as seen through the eyes of one indomitable woman whose courage and sacrifice will come to define a generation.

**Grit**-Angela Duckworth 2016-05-03 In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” “Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak
Duckworth’s ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book Review). Among Grit’s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal).

A History of War in 100 Battles-R. J. Overy 2014 Richard Overy plumbs over 3,000 years of history, from the Fall of Troy in 1200 BC to the Fall of Baghdad in 2003, to locate the 100 battles that he believes the most momentous. Arranged by themes such as leadership, innovation, deception, and courage under fire, Overy presents engaging essays on each battle that together provide a rich picture of how combat has changed through the ages, as well as highlighting what has remained consistent despite advances in technology.

Caste-Isabel Wilkerson 2020 NEW YORK TIMES BESTSELLER - OPRAH'S BOOK CLUB PICK - The Pulitzer Prize-winning, bestselling author of The Warmth of Other Suns examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. "An instant American classic."--Dwight Garner, The New York Times "As we go about our daily lives, caste is the wordless usher in a darkened theater,
flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, Caste: The Origins of Our Discontents is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

A Hole in the Head—Charles G. Gross
2012-01-13 Essays on great figures and important issues, advances and blind alleys—from trepanation to the discovery of grandmother cells—in the history of brain
Neuroscientist Charles Gross has been interested in the history of his field since his days as an undergraduate. A Hole in the Head is the second collection of essays in which he illuminates the study of the brain with fascinating episodes from the past. This volume's tales range from the history of trepanation (drilling a hole in the skull) to neurosurgery as painted by Hieronymus Bosch to the discovery that bats navigate using echolocation. The emphasis is on blind alleys and errors as well as triumphs and discoveries, with ancient practices connected to recent developments and controversies. Gross first reaches back into the beginnings of neuroscience, then takes up the interaction of art and neuroscience, exploring, among other things, Rembrandt's "Anatomy Lesson" paintings, and finally, examines discoveries by scientists whose work was scorned in their own time but proven correct in later eras.

The Color of Law: A Forgotten History of

How Our Government Segregated America—Richard Rothstein 2017-05-02 New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates’ “Amazing Books” of the Year One of Publishers Weekly’s 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This “powerful and disturbing history” exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a “masterful” (Washington Post) and “essential” (Slate) history of the modern American metropolis, Richard Rothstein’s The Color of Law offers “the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation” (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the
unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, “virtually indispensable” study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), The Color of Law forces us to face the obligation to remedy our unconstitutional past.

The New York Times - 2008 Facsimile reproductions of more than 300 of the most significant and pivotal New York Times front pages.

U.S. History - P. Scott Corbett 2017-12-19

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Acclaimed for its masterful new translation and insightful commentary, The David Story is a fresh, vivid rendition of one of the great works in Western literature. Robert Alter's brilliant translation gives us David, the beautiful, musical hero who slays Goliath and, through his struggles with Saul, advances to the kingship of Israel. But this David is also fully human: an ambitious, calculating man who navigates his life's course with a flawed moral vision. The consequences for him, his family, and his nation are tragic and bloody. Historical personage and full-blooded imagining, David is the creation of a literary artist comparable to the Shakespeare of the history plays.

2016-05-17 Complete Atlas of the World, 3rd Edition is now fully revised and updated to reflect the latest changes in world geography, including the annexation of Crimea and the new nation of South Sudan. Bringing each featured landscape to life with detailed terrain models and color schemes and offering maps of unsurpassed quality, this atlas features four sections: a world overview, the main atlas, fact files on all the countries of the world, and an easy-to-reference index of all 100,000 place names. All maps enjoy a full double-page spread, with continents broken down into 330 carefully selected maps, including 100 city plans. You will also find a stimulating series of global thematic maps that explore Earth's place in the universe, its physical forms and processes, the living world, and the human condition. From Antarctica to Zambia, discover the Earth continent-by-continent with Complete Atlas of the World, 3rd Edition.

Killers of the Flower Moon - David Grann
2017-04-18 NEW YORK TIMES BESTSELLER - NATIONAL BOOK AWARD FINALIST From the #1 New York Times best-selling author of The Lost City of Z, a twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history. In the 1920s, the richest people per capita in the world were
members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history. A New York Times Notable Book Named a best book of the year by Amazon, Wall Street Journal, The Boston Globe, San Francisco Chronicle, GQ, Time, Newsday, Entertainment Weekly, Time Magazine, NPR, Vogue, Smithsonian, Cosmopolitan, Seattle Times, Bloomberg, Lit Hub, and Slate

**Between the World and Me**-Ta-Nehisi Coates
2015-07-14 #1 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • NAMED ONE OF TIME’S TEN BEST NONFICTION BOOKS OF THE DECADE • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST • ONE OF OPRAH’S “BOOKS THAT HELP ME THROUGH” • NOW AN HBO ORIGINAL SPECIAL EVENT Hailed by Toni Morrison as “required reading,” a bold and personal literary exploration of America’s racial history by “the most important essayist in a generation and a writer who changed the national political conversation about race” (Rolling Stone) NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • NAMED ONE OF PASTE’S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY The
In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation’s history and current crisis. Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? Between the World and Me is Ta-Nehisi Coates’s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children’s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, Between the World and Me clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.
